DIGITUS® Professional Fiber Optic Cabling System

Appendix A – Solutions eligible for guarantee cover

Table of contents

1. Solutions eligible for guarantee cover
2. Approved permanent links
3. Installations comprising multi-class/multi-category components
4. Elements of solutions eligible for guarantee cover
5. Item overview solutions

ASSMANN System Guarantee

1. Solutions eligible for guarantee cover

The DIGITUS® Professional Fiber Optic Cabling System is composed of the DIGITUS® Professional cable types in combination with the DIGITUS® Professional connection elements as listed below.

Guarantee coverage is limited to DIGITUS® Professional Fiber Optic cabling systems;

it does not extend to combinations of unshielded and shielded components.

2. Approved permanent links

In general, the guarantee will only be granted for the "permanent link" of the installation link.

Standards:

DIN EN 60793-1-40

EN 50174

ISO/IEC 11801

CENELEC EN 50173

EIA/TIA 568B

EN (CENELEC) (European Committee for Electrotechnical Standardization)

ISO/IEC (International Organization for Standardization, International Electrotechnical Commission)

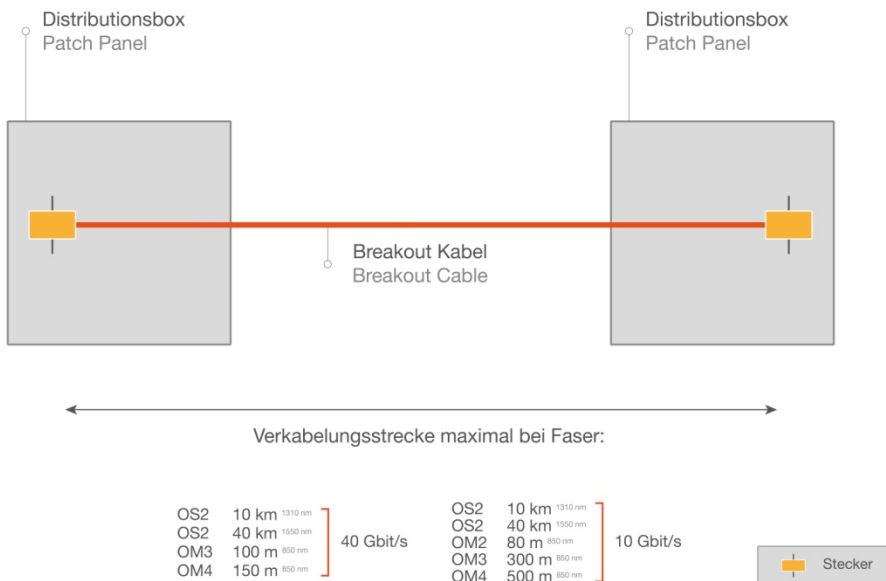

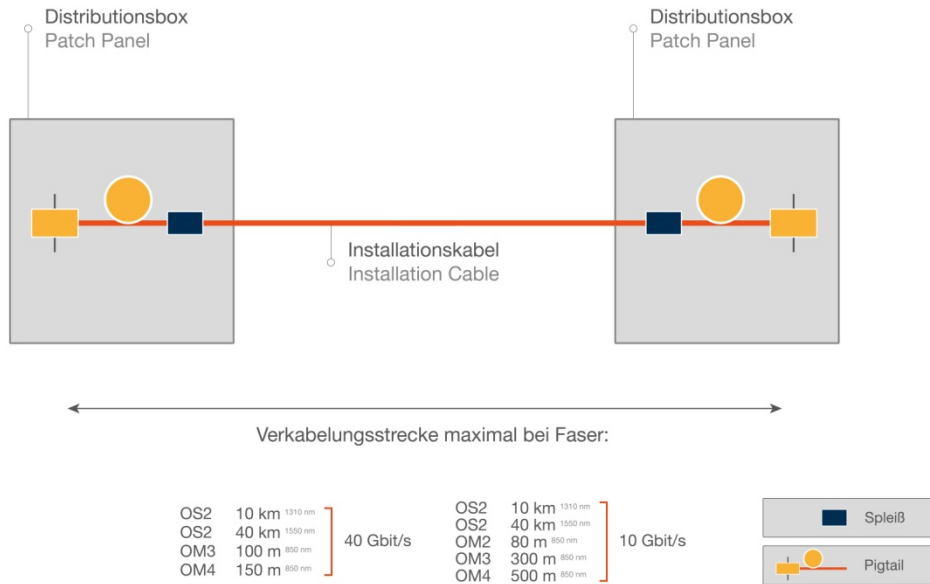

TIA/EIA (Telecommunications Industry Association, Electronic Industries Association)

3. Installations including multi-class/category components

Mixed usage of DIGITUS® Professional Fiber Optic components means that the ASSMANN system guarantee will be granted based on the lowest category or class of the components used.
